## PROFILE

Creative and passionate, I specialize in transforming designs into interactive, user-friendly web experiences. With a solid educational background in Computer Science and 1 year of industry experience, I focus on mobile-first design principles and cross-browser compatibility. Proactive and detail-oriented, I am committed to leveraging the latest web technologies. A strong communicator and team player, I am dedicated to delivering innovative solutions and driving digital project success.

## EXPERIENCE

**Intern UI/UX Engineer (12 Months)**
**Intervest Software Technologies (2022-2023)**

- Intersureplus - I enhanced user interfaces using HTML, CSS, JavaScript, SASS & Optimizely focusing on responsive design and user experience across three subdomains in the travel insurance project.

- Petsure - This project a dedicated pet insurance platform, I employed HTML, CSS, SASS, Bootstrap & JS in the development process to create responsive and intuitive user interfaces.

- Wapp - I utilized HTML, CSS, SASS, and Bootstrap for front-end development, leveraged Postman for API integration, crafted content with Enonic XP, and employed Figma for design prototyping.

- Tabl - In my tenure at Tabl, a restaurant booking platform, I harnessed React JS and SASS to build and improve the site's interactive and stylized user interfaces.

- Self Projects - In my free time, I've designed numerous UIs, implemented various prototypes, and earned advanced certificates relevant to my role. For a comprehensive view, please visit my portfolio at https://kavinsk.com

## EDUCATION

**University Of Westminster (IIT)**
2021 - 2024 | BSc Computer Science

**Dharmapala Collage Bandarawela**
2017 - 2019 | Advanced Level Physical Science
